Environmental policy

In Q-Free, we are proud to say that our solutions are all about making traffic systems intelligent, ensuring efficient transportation, and reducing travel times for end-users. The result means direct and effective benefits for the environment.

Q-Free focuses on minimizing its direct negative impact on the environment by ensuring the company designs, manufactures, sells, and delivers its products and services with a minimal ecological footprint, in accordance with national and international environmental laws and regulations.

A handwritten signature in blue ink, appearing to read 'Håkon Voldal', written over a horizontal line.

Håkon Voldal
CEO Q-Free
